# PROBLEM STATEMENT

*In today's digital era, professionals, students, and freelancers need an online presence to showcase their skills, projects, and achievements. Traditional static portfolios require technical knowledge to update and maintain, which creates a challenge for users who are not proficient in coding. As a result, many portfolios remain outdated, failing to represent the individual's current abilities and work.*

# PROJECT OVERVIEW

*The Dynamic Portfolio with Admin Panel is a web-based application designed to help users showcase their personal and professional details in an interactive way.*

# WHO ARE THE END USERS?

## Students:

- . To showcase academic achievements, projects, and skills.

## Job Seekers:

- . To present resumes, work samples, and certifications dynamically.

## Freelancers:

- . To display services, client projects, and portfolio

# TOOLS AND TECHNIQUES

## *Frontend:*

. *HTML, CSS,  
JavaScript, Bootstrap /  
Tailwind CSS*

## *Backend:*

. *PHP / Node.js /  
Python (Django/Flask)  
Databa*

# POTFOLIO DESIGN AND LAYOUT

*Dynamic porA dynamic portfolio with an admin panel is designed with a clean, modern layout that showcases projects, skills, and achievements on the public side, while providing a secure backend for easy content management. The portfolio layout typically includes a hero section, project grid, about section, blog or case studies, and contact page, all styled with responsive design for seamless viewing across devices.*

# *FEATURES AND FUNCTIONALITY*

*The Dynamic Portfolio with Admin Panel offers features such as easy content management, secure admin login, responsive design, project and skills showcase, contact form integration, and real-time updates without coding knowledge*
